Web & Graphic Designer / <Front End Developer>

## Personal Information

I'm Bhaskar Web & Graphic Designer / < Front end developer/> based in Chennai India.

I'm specialized in web design, web development & branding.

I'm passionate about building simple, clean Websites and User Interfaces that are easy to use and beautiful to look at. I do Web Design from the scratch including logo, beautiful website design, W3C Standard, iPhone/iPad/Android UI Design and anything that's creative. I can help convert your Photoshop design into well-written HTML and CSS code that's clean, pixel perfect and meets current world standards.
